Professional Summary

Professional Summary

Enthusiastic and detail-oriented B.Tech Computer Science student specializing in Artificial Intelligence at Dr. A.P.J. Abdul Kalam Technical University, Lucknow, with a strong foundation in Data Structures & Algorithms, Java, C++, Python, and full-stack web development. Experienced in building responsive, scalable, and user-focused web applications using technologies including HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB, Tailwind CSS, and TypeScript. Actively strengthening problem-solving skills through LeetCode and competitive programming, while exploring AI-driven solutions and intelligent systems. Passionate about software engineering and developing practical, high-impact products through clean code, continuous learning, and innovative problem-solving.

Education

Bachelor of Technology (B.Tech):

Expected in 09/2028

- Computer Science and Engineering (AI Specialization)
- From - Ambalika Institute of Management and Technology
- Affiliated by - Dr. A.P.J Abdul Kalam Technical University (AKTU) - Lucknow

Higher Secondary School (12th) :

04/2023

- Completed 12th with PCM
- From- RKS College, -West Champaran ,Bihar, India
- Percentage: 83.9%

Secondary School (10th) :

04/2021

- Arfa International School- Bihar ,West Champaran, India
 - Percentage: 85.65%
-

Experience

Self-Directed | 2026–Present

- Designed and developed responsive, user-focused web applications using **HTML, CSS, JavaScript, React, Tailwind CSS, Node.js, Express.js, and MongoDB**.
- Built full-stack applications with **REST APIs, authentication, database integration, and frontend/backend communication**.
- Worked on **Rakkt**, a healthcare-focused platform featuring donor registration and search, doctor discovery, appointment booking, authentication, and payment integration.
- Applied software engineering practices including **modular architecture, API design, error handling, validation, security middleware, and database modeling**.
- Continuously improve applications through debugging, performance optimization, responsive design, and iterative development.

Self-Directed | 2026–Present

- Regularly solve **Data Structures & Algorithms** problems using **Java**, focusing on arrays, strings, recursion, dynamic programming, greedy algorithms, graphs, trees, and binary search.
- Strengthen algorithmic problem-solving by analyzing **time and space complexity** and identifying reusable problem-solving patterns.
- Practice consistently on **LeetCode** to prepare for software engineering technical interviews.

Technical Skills

- **Programming Languages:** Java, C++, C, Python, JavaScript
 - **Web Technologies:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Responsive Web Design
 - **Backend & Database:** Node.js, Express.js, MongoDB, REST APIs
 - **AI & Machine Learning:** AI/ML Fundamentals
 - **Data Structures & Algorithms:** Arrays, Strings, Recursion, Searching, Sorting, Dynamic Programming, Problem Solving
 - **Developer Tools:** Git, GitHub, VS Code, LeetCode
 - **Core Concepts:** Object-Oriented Programming, Database Management, Software Development, API Integration
 - **Soft Skills:** Problem-Solving, Team Leadership, Communication, Adaptability
-

Certifications & Courses

- **Explore Generative AI** — Microsoft Learn

- **LLM for Young Developers – Foundational Course** — INDIAai × Meta × NASSCOM FutureSkills
 - **C Programming Certification** — EduPyramids – SINE, IIT Bombay
 - **Digital Productivity with AI** — UNICEF × YuWaah
 - **GitHub Masterclass: From Beginner to Open Source Contributor** — Event Dev X
 - **Certificate of Participation** — Ideathon, Yogyata 2.0 — IEEE Student Branch, AIMT
-

Projects

Technical Interests & Community Involvement

- **Java Developer**, Software Engineer, **Front-end Developer**, Artificial Intelligence Developer, Machine Learning, **Web Developer**, Data Structures, Prompt Engineering, **DSA**.
 - Active participant in **Google Developers community**, attending workshops and contributing to projects to enhance skills in **software development, web technologies, and AI**, also participated in **Hackathons**
-
